NCC Center for Workforce Development

NCC Office of Student Professional Development & Employer Services

The MWBE Center for Excellence in Entrepreneurship at Nassau Community College is committed to maximizing contract opportunities for minority/women-owned businesses (MWBEs) and service-disabled veteran-owned businesses (SDVOBs) by offering certification programs, ongoing continuing education, mentoring, one-to-one instruction, training in business readiness and economic development, and networking opportunities. Our primary goal is to help small businesses become MWBE/SDVOB certified and to assist each business with growth and sustainability. The Center welcomes MWBEs with all levels of entrepreneurial experience.
