

## Institutional Effectiveness and Strategic Planning

### Program Accreditation/Certification Date and Licensure Pass Rates Report

Nassau Community College offers several degree programs that lead to certification or licensure. This report provides the certification or licensure rates for these programs. Institutional Effectiveness and Strategic Planning will continue adding licensure and pass rate data, annually, to this report until the data provided covers a ten-year period. Certification and licensure rates are provided by calendar year, not academic year. In addition to providing the certification or licensure dates, this report also provides pass rates for students in all programs with an external accreditor or certification (see Table 2).

Questions about this document can be directed to Institutional Effectiveness and Strategic Planning (oiesp@ncc.edu).
