

Take Control of Your Future

NOW IS THE TIME - STUDY ONLINE FOR A NEW CAREER IN HEALTH CARE

The health care industry on Long Island is one of the fastest growing sectors and is well positioned to continue its growth. Consider beginning your employment in this sector by training for one of the following entry-level positions. Over time, you can advance your career by earning additional credentials that will also increase your earning power.

Nassau Community College (NCC) in partnership with Condensed Curriculum Inc. (CCI) is pleased to offer the following health care courses online.

These courses are online and available anytime, anywhere. Features of the online program include:

- Access to the online learning management system including recorded webinars, videos, flashcards, open discussion boards; with up to 350 hours of training that can be accessed over a six-month period
- Pre- and post-assessments and online performance tracking
- Instructor or mentor guidance and support as you progress toward completion
- Career guidance through the "Career Services Website."

Technology Requirements: You need a computer or tablet with a browser and internet access. Note: After registration and during your first log into your course, you will run "test computer", and you will be provided links to load the appropriate software, and if necessary, to adjust settings and enable cookies and pop ups. A help desk is available. You can preview a demo of online courses at www.healthtoday.com.

Dialysis Technician Online Program

Students are provided with the knowledge needed to perform the duties required of an entry-level Dialysis Technician trainee. This training is appropriate for RNs, EMTs, CNAs, PCTs and other health care professionals interested in specializing in dialysis. For those without healthcare experience, this course will make the student more marketable in applying for an employee training program at a Dialysis Treatment Center. Textbook is included. Students with a high school diploma and who complete a minimum of one year of employment as a Dialysis Technician at an End-Stage Renal Disease (ESRD) or medical facility can apply to take the Board of Nephrology Examiners Nursing Technology (BONENT) Certified Hemodialysis Technician certifying exam. A current, government-issued ID and a clear record with no felonies is required to take the exam. For more information, click on **NCC Workforce Development Dialysis Technician**.

CE1 274 OL1 Online Course **Starts October 20.**

Students have six months to complete the program.

\$1,050

Dental Assisting Online Program

This course will familiarize students with all areas of pre-clinical dental assisting and provide training in the professional skills required to function as an assistant in the dental practice. Students may pursue the Dental Assistant National Board (DANB) Certified Dental Assistant (certification, (RHS and ICE). Students need a high school diploma or equivalent, a current government-issued photo ID, and the application requires disclosure of a Social Security number. The cost of the certification exams is not included. An optional, 40-hour Clinical Externship for no additional cost might be available after course completion and only if it is safe to do so. To be eligible, a student must successfully complete the program, provide a resume, and may be required to complete a drug screening, background check and/or medical exam and provide proof of immunization. Textbook is included. Background check* and drug screening are additional costs. For more information, click on **NCC Workforce Development Dental Assisting**.

CE1 275 OL1 Online Course **Starts October 20.**

Students have six months to complete the program.

\$1,350

Pharmacy Technician Online Program

Students will be prepared to sit for the Pharmacy Technician Certification Board (PTCB) exam. Students will learn pharmacology, drug classification, purpose, and interaction and will study how to interpret a prescription, calculate dosages, prevent medication errors, fill prescriptions, and inventory control. An optional, 80-hour Clinical Externship for no extra fee might be available after course completion and only if it is safe to do so. Students must comply with Externship entry requirements including a resume, background check*, drug screening, and may require a medical exam and proof of immunization. A government-provided photo ID is also required. Background check*/drug screening, and certifying exam are additional costs. For more information, click on **NCC Workforce Development Pharmacy Technician**.

CE1 276 OL1 Online Course **Starts October 20.**

Students have six months to complete the program.

\$1,350

ECG for Nurses Online

A valuable resource for nurses to learn the fundamentals of reading and interpreting ECGs. The following key topics are included: cardiac anatomy and physiology, electrical basis of ECGs, and several of the most common dysrhythmias, as well as identifying changes to the ECG. 100 hours of online material is available.

CE1 274 OL1 Online Course **Starts October 20.**

Students have six months to complete the program.

\$695

**Applicants will be responsible to complete a background check to participate in an externship. Once registered, a student will be provided information on completing the background check. Students are required to pay the cost of the background check. If you have been convicted of a felony, you should contact the Center for Workforce Development prior to registering for this program. A felony conviction may prevent you from participating in a clinical rotation/externship portion of the program. All cases will be reviewed on an individual basis. If it is determined that a student is not eligible to go into a clinical setting, the student may be allowed to continue with only the classroom or online portion of the program and may not meet requirements to sit for a certifying exam. The refund policy will be adhered to regardless of a student's eligibility for the clinical rotation/externship of any program.*
