

September 7, 2020

Dear Students, Faculty & Staff,

I hope this message finds you all well.

The health and safety of our NCC community is of the utmost importance and as such we have been extensively monitoring the COVID-19 situation. The County, through their contract tracing, identified four NCC students who have tested positive for COVID-19. These students have not been on the campus and are currently participating in remote or online courses for the Fall 2020 semester. At this time, we will continue to work closely with the Nassau County Department of Health (NCDOH) and SUNY to monitor the COVID-19 situation.

If at any time the College is notified of an NCC community member testing positive, who has been to campus, we will notify the entire NCC community as well as the NCDOH. Additionally, the College, through our internal contact tracing process, will contact the individuals who have or may have come in contact with the COVID-19 positive individual(s) and provided them with instructions for quarantining and symptom-monitoring.

As a reminder, you are required to complete the COVID-19 screening prior to coming onto the campus. This screening can be found on the NCC portal for both students and employees. If you receive a positive test result, please make sure to notify the College. Employees please notify your supervisor and Human Resources. Students should notify the Student Health Office.

We urge you to continue taking all actions that prevent the spread of infectious disease, including, but not limited to, wearing a face mask/covering, maintaining social distancing and practicing good hygiene. We can all do our part.

We are Nassau Strong!

Regards,  
Jermaine F. Williams, Ed.D.  
President – Nassau Community College
